

<<ASIA-PACIFIC ENGINEERING CONSULTING SERVICES LLC NEWS>>

RELEASED 01 JULY 2009

Asia-Pacific Engineering Consulting Services, LLC (APECS), of Valencia, California, is pleased to announce the consummation of a partnership with Aero Instruments & Avionics (AIA) of North Tonawanda, New York.

Aero Instruments & Avionics is the premier independent repair center in North America specializing in repairs and overhauls of commercial aircraft instruments, avionics and electrical accessories. AIA is an FAA and EASA approved Part 145 repair center with a broad range of capabilities and a large, highly trained staff with many departments specializing in test and repair of commercial air transport and regional aircraft instruments, avionics, autopilot, gyros, and accessories. As well as being a Bombardier Class "E" Service Supplier, AIA is an L-3 Aviation Recorders Authorized Service Center.

APECS is a Globally-based, Engineering and Marketing Consulting Firm specializing in FAA-DER Repair Development as well as providing Direct Technical Sales and Marketing Support for a number of distinguished clients and we are thrilled to have Aero Instruments & Avionics as our newest Electronics Partner in Southeast Asia, Northeast Asia, the Indian Sub-Continent and the Peoples Republic of China.

APECS looks forward to working with AIA's existing customers and working with them to develop new markets in the Asia-Pacific Region.

A handwritten signature in blue ink, appearing to read "Peter A. Stonefield", is displayed on a light yellow background.
