

# APECS

26 October 2011 -- FOR IMMEDIATE RELEASE

Asia Pacific Engineering Consulting Services, LLC (APECS) is pleased to announce the signing of a Representation Agreement with Aero Component Engineering of Valencia, California.

Established in 1964, Aero Component Engineering, an ISO9001 and AS9100 Certified manufacturer of aerospace hose and hose assemblies; tube and tube assemblies; fittings, and machine parts. ACE manufactures to Mil standards and specifications, and specializes in hydraulic hose assemblies to meet the requirements of their customers. Additionally they can manufacture to customer prints or reverse engineer customer products when no prints are available.

ACE's capabilities include rubber, Teflon, and metal hose assembly manufacturing. ACE utilizes Aeroquip, Stratoflex and Sprague Assembly and Test Machines. ACE delivers high quality products at competitive pricing with short lead times.

Under the terms of the agreement, APECS will provide direct agent support to ACE through our office in Los Angeles, Delhi, Dubai, Queensland, Quito, Singapore, and Taipei.

APECS is pleased to welcome ACE to our family of supported companies.
